

NotePAC III

Rugged laptop designed to be compact with triple displays while maintaining excellent performance.

Laptop Form Factor

The NotePAC III keeps the powerful performance of computers while adopting a unique and different design. It utilizes a more notebook-style form factor. Despite the size, it does not compromise performance as it can compete with the likes of many other computers.

Triple Displays

The NotePAC III comes with triple displays, but unlike many other models, the extra displays do not compromise the laptop's portability.

Expansion Possibilities

The NotePAC III has plenty of expansion space for removable drives and PCIe expansions. Configurable options include 2x 3/4 length PCIe Slots (x16, x8) for add-in graphics, RAID, Network, or other I/O.
